Overview

Ipro Tech, LLC is pleased to announce the 2019.6.1 release of Ipro for enterprise.

This release is focused on allowing document review to happen dynamically in both batches and searches. This functionality is only available in the Review hexagon.

Ipro® for enterprise Version 2019.6.1

New Features

AR-19 - Tags in the Grid – When in the document grid, users can now add any tags they have access to by adding a new tag group column. This allows to reviewers to quickly compare how documents are tagged across a document set. Any tag that is selected will show in the document grid separated by semicolons. Tags can be changed using the mass tag functionality.

A tag pallet and coding form were added in the search area of the application. An option was added to display the review grid when a user enters the case via a review pass. Users with access to review passes can also use coding forms to set a default grid view that reflects the order of the coding form.

AR-15 - Clickable Relationships/Document Permissions – Relationships now have a clickable BEGDOC column that allows users to view a document that is included in the relationships. In search mode, any document included in a relationship can be clicked in order to view it. In review pass mode, documents outside the review pass will appear greyed out with a message that the document is outside the review pass.

AR- 651 - Assign a Document to a Review Pass via a Mass Action – The workflow for adding documents to a review pass were simplified. The application now has a mass action to add documents to review passes in the mass actions drop-down from the document grid. This mass action is controlled by the review pass permission. Documents added via the mass action are automatically batched according to the chosen review pass.

AR- 1316 – Import From Active Directory/CSV - New users can be imported from your active directory account or a .CSV file.

AR-1317 – Improved User Management - You can now view and “manage”, which groups a user has been assigned to from the user's page. Additionally, you can specify which IP addresses have access to your application and force users to reset their password on next login.

Support Hours

- General Support Hours: Monday – Friday, 5 a.m. – 7 p.m. (GMT-07:00) Arizona
- After Hours: 24 x 7 for urgent issues

How to Contact Us

- Phone: 877-324-4776
- Web: https://iprotech.com/resources/ipro-support/ to submit a ticket.
- Email: support@iprotech.com

About our Support System

All issues entered by phone, email, and web will generate a new support ticket and an auto-response will be sent to the sender with the new issue number. Reply to this email for all future email correspondence on that issue to prevent a duplicate ticket from being generated.

NOTE **Web Users**: You will need to register the first time you visit our website. After that, you can simply log in with your username and password.

By default, you will be able to view, edit, and report on all issues entered under your contact ID (email address). Our support platform also allows contacts from your organization to be listed as "Support Administrators," allowing them the ability to view all issues entered by anyone inside the organization. If this is something you wish to be granted, please have your management contact Ipro Support at support@iprotech.com with "Support Admin Request" in the subject line and the names and email addresses of those to be given access in the email message.
